DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 11, 2006 has been entered.

Claim Objections

1. Claims 6, 10 and 14 are objected to because of the following informalities:

In claims 6 and 14, the invention is a self-standing liquid crystal display device in which a hinge mechanism attached to an attaching section of a frame and the hinge mechanism must be mounted to a mount and making the liquid crystal panel stand. Therefore, in the claims 6 and 14, the limitations contained in the claims 16 and 18, such as "a mount for mounting the hinge mechanism and making the liquid crystal panel stand" should be written into the independent claims 6 and 14 respectively.

In claim 10, recitation ". . . the mechanism capable of changing the angle of a display surface of the liquid crystal panel is a self-standing device including a tilt mechanism" should be changed into - - . . . an angle changing mechanism capable of changing the angle of a display surface of the liquid crystal panel is a self-standing device including the hinge mechanism.- - according to the specification described in paragraph 0062 (or the filing version specification in page 13, lines 3-12).

The claims 10-12 and 15-16 are dependent on the claim 6 and the claims 17-19 are dependent on the claim 14, so that all the dependent claims have the deficiency set forth above.

Appropriate correction is required.

2. Claims 6, 10-12 and 14-19 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.
